#### Evaluation on the Day Tour to Kowloon Walled City Park and Museum of Coastal Defence on 14<sup>th</sup> February, 2004

About 300 parents, pupils and teachers joined the day tour on that day. The weather was fine and it was suitable to have outdoor activities. A total of 45 and 32 evaluation forms were collected from parents and teachers respectively. Majority of the participants found the trip good and educational. The following findings reflect parents' and teachers' opinions respectively.

Parents named many other preferred places such as the History Museum, the Science Museum, Space Museum which PTA will consider when planning for the next trip.

The following are comments from parents and teacher which will be passed on to the PTA committee when planning for the next trip. Although the committee is aware of some of the ideas mentioned by the participants, due to the great number of participants that we are not able to arrange it in an alternate way. For example, it was impossible to arrange a guided tour in Kowloon Walled City Park and the Museum of Coastal Defence because they only offered one guided tour for 30 participants every day, therefore a guided tour was not available. Nevertheless, participants should ask the teacher-in-charge for information as all of them have been provided with relevant materials to help parents at any time.

### Comments

- It was very good.
- It was great.
- This kind of programme is very interesting and knowledgeable for both child and parents
- Both places visited on 14 Feb 2004 had been very interesting and helped us parents as well as the children to understand Hong Kong better. The time allotted in both places was just right. All the teachers were very effective and thoughtful in assisting all participants. "More activities like this in the future" Congratulations!
- To better understand Hong Kong you need to conduct a once a month trip to all Historical places in HK and a follow up video presentation is needed to refresh children awareness.
- This was a very good trip. My child learns about Hong Kong's history. Also, we enjoyed with other parents and teachers. I hope we all should have more outgoing activities.
- Firstly, I like to thank Headmistress, teachers, PTA for this opportunity for us to see all this historical places in HK. Hope we could visit more places so we can understand more about Hong Kong History.
- It was very good.
- The trip was very good.
- The idea of day tour in museums and Historical places is very good. They were (students) introduced and practiced to appreciate art and in the history of Hong Kong. Maybe the school and the PTA can plan to bring parents, teachers and students to places of museums that show the creativity of Chinese people like the Chinese arts and crafts. And going in museums and following rules inside the museums shows their discipline and it reflects the school discipline you taught them.
- Places visited should have enough facilities such as toilet and eating area.
- May be we can do this every month.

- The trip last February 14, 2004 was really very good. Although I find the trip to the Hong Kong museum of coastal defense not long enough. The Exhibition Galleries display a lot of valuable artifacts that took most of our time and left no time for us to walk down the historical trail. Anyway, my family enjoyed the trip very much and we would like to thank the school and staff for organizing this trip.
- The visit was very good except that it was too long. But still, my child and I enjoyed the trip very much. But I would also like to go to some other places like the airport, the Space Museum, Stanley Beach, Tai Po Waterfront park etc. It was very nice to go on a trip like this one. There's no need for improving
- The teacher must give more knowledge and the student about the background of the place that they are going for visit
- So far so good
- No need to stay in one place for a long time. I think one hour or one and a half is enough.
- The day chosen was "Valentines day" a day hopefully to be spent with family. I hope in future arrangement such may be considered.
- Too long time to stay at Hong Kong Museum of Coastal Defense. Parent and child can spend more time and stay at Kowloon walled City Park.
- I think we can join the guide tour organized by the museums to have in depth knowledge about the exhibits.
- Please don't choose some special day like "valentine's day" to had a day tour next year. As teacher also has his family day on this special day. My case is I've booked a superstar Leo sea cruises on Friday to celebrate with my wife for 2 month ago, and I must cancel the trip and I Found upset on that day. Please be considerable and arrange on suitable next year. Thanks.
- The time staying in the museum can be shortened.
- Parents did not tour around the museum by themselves. So it's better for the teachers to guide them all along.
- It's difficult for teachers to use mic to lead the group walking around. Because it's not allowed to use mic in the museum.
