Dear Parents/Guardians,

To Stay Healthy

We are very happy to welcome all children back to school after the long holiday. Although there is no sign of the breakout of Atypical Pneumonia again in the community, we are reminded by the Education and Manpower to be alert to the health condition of all pupils returning to school. Please note that parents have to take the body temperature of their children every morning before sending them to school. The reading of the body temperature should be properly recorded in the Temperature Record Book. Pupils having a fever should seek medical advice immediately and rest at home.

The Government has also called on members of the public to be on guard against dengue fever which is a severe mosquito-borne infectious disease characterized by high fever, headache, rash and joint and muscular pain. Aedes albopictus, which is a vector of dengue fever, is prevalent locally. Therefore, it is of utmost importance that the environment does not promote breeding of mosquitoes and everyone should try to control and prevent mosquito problems. Some of the mosquito control measures are listed below. Parents are requested to pay special attention to help eliminate the breeding of mosquitoes.

- The used tins, boxes and bottles should be properly disposed off in the covered rubbish bin;
- Water in vases should be changed at least weekly;
- Water storage containers should be properly covered with lids;
- Drainage pipes should not be blocked with rubbish;
- Always wear long-sleeve blouses and trousers;
- Apply insect repellent on the parts of body exposed in the air;
- Stay in air-conditioned rooms, if not, please use the mosquito netting.

We assure you that we will continue to provide a healthy and hygienic school premises for all our pupils and we do hope that parents can be co-operative with us.

Thank you for your attention.

Mrs. TANG LEUNG Yuet-may
Headmistress
Our Vision: Develop fully pupils’ potentials
Help them integrate into local community
Develop a global outlook

Our Mission: It is our mission to provide a positive learning environment that enhances each child's opportunity to learn and to develop through educational programme which recognizes the need for growth in moral, intellectual, physical, social and athletic skills, knowledge and attitude.
