To: Parents and Guardians,

Survey of Computer Availability and Usage

In order to provide a better service to pupils and parent through our school web, our school is conducting a survey on pupils’ access to computer and Internet service outside school.

Our school is now providing information through our school web such as school notice, school calendar, and homework records. Moreover, e-mail accounts, Aero drive storage space are also provided for all pupils.

We intend to develop more web-based materials to help pupils to learn. So it is very important for us to explore on the possibility of extending web-based service to our pupils based on the information collected from this questionnaire.

We would be grateful if parents can help to fill in the questions in the following survey form.

(Mrs. TANG LEUNG Yuet-may)
Headmistress

Notice No.33/03-04 – Survey of Computer Availability and Usage
