To: Parents/Guardians,

Stepping up Precautionary Measures to Prevent the Resurgence of SARS

Please be advised that the Government announced on 5th January, 2004 that a SARS case has been confirmed in Guangzhou. Parents are reminded to join hands with the school in taking precautionary measures to prevent the resurgence of SARS in Hong Kong. Please note the following:-

- Pupils should build up good body immunity by having a proper diet, regular exercise and adequate rest.
- Pupils should maintain good personal hygiene, and wash hands when they are dirtied by respiratory secretions e.g. after sneezing, coughing or cleaning the nose.
- Pupils should wash hands before eating and after going to toilet.
- Pupils should not share drinks, snacks, towels or eating utensils with others.
- Parents are reminded to take the body temperature of your child before letting them to school every day. You are required to record the child’s body temperature in the Body Temperature Record properly. If a child has a fever, he/she should not be sent to school. Please do not send your child to school until he/she is fully recovered.
- Parents should be alert to the physical health of their children and consult the doctor promptly if any symptom of respiratory tract infections, in particular fever, is noticed.
- Parents are also reminded to be co-operative and keep your home clean, hygienic and maintain good ventilation.
- Parents are reminded to report to school after your child has visited the Guangdong Region to alert the school to monitor closely the health conditions of your child. (A Form is available in school.)

Thank you for your attention and co-operation.

Mrs. TANG LEUNG Yuet-may
Headmistress
