MESSAGE FROM TEACHERS

Dear graduates,
As you embark on your journey, remember Mahatma Gandhi's words: "Be the change you wish to see in the world." By embracing love, kindness, and compassion, you have the power to conquer any challenge and make a profound impact on the world. Congratulations on your graduation, and may you spread love wherever you go. Be a hero of yourself and a beacon of light for others to follow. Cheers!

Ms YU Hing-yin Marie
Headmistress

Let's begin with a quote by J.K. Rowling, "It is our choices, Harry, that show what we truly are, far more than our abilities." You may wonder how choices can lead us to the road to reach our goals. Indeed, every single step we take will shape our life. To all graduates, don't hesitate to find your strength, go along the path and be your hero.

Ms Fung Wan Shuen
Deputy Headmistress

You've got what it takes to soar high and make a difference. Keep shining and spreading your awesomeness wherever you go!

"Hard times don't create heroes. It is during the hard times when the 'hero' within us is revealed. (Bob Riley)"

It is my pleasure to watch you grow and flourish academically and personally throughout the years. Graduation is a reflection of your growth, dedication and determination. Carry the lessons you've learnt, the friendships you've made and the values you hold dear with you so that you can embrace all the challenge that lies ahead in your next adventure. Stay curious, keep exploring, and never stop reaching for the stars.

Ms. CHUNG Lei-kwan
6A Class Teacher

"A hero is not shaped by their titles or trophies, but by their actions and character. (Kobe Bryant)"

Dear graduates,
To fuel your aspirations, you can appreciate the heroes around and take inspiration from their stories, actions and values which motivate you to become the best version of yourself. Heroism can be found in everyday acts of kindness, compassion and bravery. Embrace the hero within you and have an impact on the world.

Ms. LO Ka-yin
6A Class Teacher

Dear P.6 students,
I would like to share with you a quote from my personal hero, Helen Keller: 'Faith is the master of destiny.' This quote reminds us that faith is the key to our success no matter how challenging the obstacles we face.

You must believe in yourselves and believe that your destiny is in your own hands. Let us bravely embark on the path to success, guided by Helen Keller's words!

Ms. HO Ka-wan
6D Class Teacher

Dear P.6 graduates,
congratulations on your next journey! I would like to share one of my favourite quotes:
"A pessimist makes difficulties of his opportunities, and an optimist makes opportunities of his difficulties. — Harry S. Truman".

No matter which secondary school you go to, I hope all of you can always work hard and be optimistic, believing in yourself. Challenges make life enjoyable, and overcoming them makes life meaningful. Be your hero!

Ms. WONG Pik-yiu
6C Class Teacher

「見賢思齊焉，見不賢而內自省也。」《論語·里仁》

"When you see a good man, think of emulating him; when you see a bad man, examine yourself. (Confucius)"

Being your P.1 and P.6 Class teacher and Chinese teacher has been the most grateful experience for me. Witnessing all of you successfully graduate fills my heart with joy. May your knowledge, perseverance, wisdom, and humility guide you to grow and become successful heroes who bring pride to yourselves and others.

Ms. LEI Wing-kwan
6B Class Teacher

Look on the bright side. Positive thinking can increase self-esteem and overall life satisfaction. You will need that positive outlook and optimism to be a confident hero. "I'm the best there is at what I do. (Wolverine)" Do not dwell on the negative side because you would not have enough energy to help people if you did. So believe in yourself and think you can go up against any challenge at any time.

Ms. LAM Chui-fan

"We do not have to become heroes overnight. Just a step at a time, meeting each thing that comes up...discovering we have the strength to stare it down. (Eleanor Roosevelt)"

To our P.6 graduates, congratulations on your remarkable achievement! As you embark on the next phase of your journey, remember that success is not an overnight transformation but a result of perseverance and resilience. Embrace challenges as opportunities for growth, and trust in your ability to overcome them. Celebrate your accomplishments, remain determined, and continue to strive for greatness. Congratulations once again, and best wishes for a bright and fulfilling future!

Ms. LAU Pui-fung

To become a hero, believe in yourself, set goals, and overcome challenges. Who is my hero? My mother inspires me with strength and love. She encourages me by showing good examples and creating a supportive environment for me to thrive. You can also become a hero by never giving up and helping others.

Ms. LO Li-ying

"A true hero is not defined by their strength, but by their ability to inspire and lead others. (Mahatma Gandhi)"

To our resilient Primary Six graduates, as you embark on a new chapter, remember that true heroism goes beyond physical strength. It lies in the power to inspire and lead others towards greatness. Your journey as heroes begins with embracing responsibility, diligence, and perseverance. Embrace the hero within and inspire others through your actions and words.

Ms. YIU Wai-sum

"We live in a world in which we need to share responsibility. It's easy to say, "It's not my child, not my community, not my world, not my problem." Then, there are those who see the need and respond. I consider those people my heroes. (Fred Rogers)"

To all P.6 graduates, congratulations on your graduation! In the past few years, you have worked hard and taken on many responsibilities to reach this end of your primary school journey!

I'm proud of your achievements, but even more proud of the person you've become --- responsible, diligent and perseverant.

Remember, everyone can be a hero when responsible, diligent, and perseverant. I wish you all the best on your new, beautiful start in secondary school.

Ms. CHU Mo-kwan

Congratulations, Primary Six graduates! Time flies, and it's hard to believe you're all in Primary 6 and about to graduate. Remember that life is full of surprises and challenges. Embrace the lessons from setbacks and disappointments as they build your character and resilience. Randy Pausch said, "Experience is what you get when you don't get what you want." Each experience brings wisdom, preparing you for success. It's bittersweet to say goodbye, but stay determined and believe that every experience brings you closer to your dreams. Keep striving and cherish the memories. Best wishes on your journey ahead!

Mr. KO Man-ho

"Nothing is impossible; the word itself says 'I'm possible!' (Audrey Hepburn)"

Congratulations to all P.6 graduates on entering your new chapter of life! Whatever challenges and hardships you encounter, please remember to believe that you are talented in your way and don't give up on what you love easily. You are valuable because of who you are but not what you are told. If you have a dream, do anything to make it come true. Dream big, fly high!

Mr. LAM Ka-lok

"A hero can keep going even when they have every reason to quit. (Rick Riordan)"

True heroes are those who can keep going despite facing overwhelming obstacles. They demonstrate unwavering resolve and resilience in the face of adversity. To our dearest Primary 6 graduates, as you embark on a new chapter, you may face challenges in different aspects; remember the importance of perseverance and the ability to push through difficulties even when they seem impossible.

Ms. CHAN Wing-yan

"It is possible for ordinary people to choose to be extraordinary. (Elon Musk)"

What makes you 'extraordinary' is how hard you work and what you do in your daily life to drive improvement. I wish you all well in the future. May you all be able to fulfil your dreams and ambitions.

Mr. WU Ka-chai

"Success doesn't come overnight; it's a result of continuous effort. Every setback is just an opportunity to come back stronger. (Jamie Vardy)"

Dear P.6 graduates, congratulations on your graduation and best wishes for your next adventure! Please remember that success is not a product of chance or luck; it is a direct consequence of consistent and unwavering dedication. True accomplishments are not merely the outcome of a single day's work but rather the culmination of an ongoing commitment to improvement and growth. Learn to embrace challenges and setbacks as catalysts for growth. May you always dare to do great things with your life.

Ms. WONG Yee-man

"Success is not by luck; it is all about how hard you have tried. (So Wa Wai)"

Dear all P.6 students, congratulations! Are you ready for the brand new page of the journey of life? A retired athlete from Hong Kong who has competed in the Paralympic Games on five occasions, winning 12 medals. He was nicknamed "Wonder Boy" because of his perseverance. With the hearing and limb issues, running is never easy for him. But So never sees any obstacles to stop him from running. His story always reminds me to keep the faith. I wish you a very bright future. Never stop chasing your dream!

Ms. TO Ngai-wan

"The optimist sees the rose and not its thorns; the pessimist stares at the thorns, oblivious to the rose. (Kahlil Gibran)"

You may encounter more difficulties in your future life, but you can be your hero if you are optimistic! I wish you a bright journey ahead!

Ms. Sio I-man

"Success is not achieved by winning all the time. Real success comes when we rise after we fall. (Muhammad Ali)"

To the graduates, being your hero is a lifelong journey that is personal and unique to you. It involves taking responsibility for your actions, pursuing personal growth, and making choices that align with your values and aspirations. It's OK to make mistakes and face challenges along the way. It embraces your strengths, facing your fears, and striving to become your best version.

Ms. WONG Shui-fan

"Great works are performed not by strength but by perseverance. (Samuel Johnson)"

The journey of life brings both challenges and opportunities. May you carry your spirit to seize the opportunities and beat the challenges. Congratulations on your graduation!

Mr. FU Yuk

"Show me someone who has never failed, and I will show you someone who hasn't tried hard enough. (Albert Einstein)"

Dear P.6 pupils,
If you were always successful, that was great. If you had a failure experience, that was not bad because it just required more hard work to overcome it to be successful. Albert Einstein not only made a multitude of contributions toward science and understanding but also improved our society through his innovation, tenacity, and ability to inspire today's generation to work harder, making him one of the most iconic heroes of our time.

Mr. TSANG Pang-fei

"I think a hero is any person intent on making this a better place for all people. (Maya Angelou)"

Congratulations, P6 graduates! It's been an absolute pleasure watching you all learn and grow at SEKPS. Remember to be the hero of your story in the adventure ahead, and have the courage to stand up for what is right and good for all. My hope is that you make fantastic friendships, have amazing experiences and fulfil your own purpose and potential. All the best!

Ms. BHARWANEY Rajni V.

"A hero is someone who can keep going even when they have every reason to quit. (Rick Riordan)"

Everyone, meet The Gregarious Girl, a young superhero with the talent of — guess! You're right — it's the power of being outgoing and brave! I always make sure nobody feels left out. I like being social and making new friends. I try to help those who have stage fright issues. My goal is to wipe away fear and sorrow and bring happiness to others. When my friends feel blue, I stand by their sides to comfort them. I agree with a famous saying of wisdom by Albert Schweitzer: 'The purpose of human life is to serve and to show compassion and the will to help others.' Lending a helping hand is an easy action. Life is short, but we can all make a difference in another's life by showing compassion. Together, we all help to make a better community, a better world filled with lots of love and care. Let's all be compassionate Kadoorians in SEKPS and empathetic citizens in the community.

I am

Super Determined. My superpower is being determined in anything I do. As long as I stay determined, I can learn anything. Yet, everything takes time. I am keen on learning languages because I am fascinated by the pronunciations and usage of different languages. With my strong mind and persistent practice, I will achieve my goals! Once, a great unknown said, "Pour your energy into what you hope to achieve. Be determined never to feed failure and negativity." However, there is a long path ahead of me to learn new things. I am determined to acquire different languages. Remember, stay determined so that you can reach your goals in the end!

You may wonder why having a sense of humour can help others. First, if I know my friends are not in a good mood, I can tell them a simple joke and cheer them up. Jokes can be entertaining and can light up our days. What's more, we can make lots of friends because we share the same interests: making jokes!

Let's improve our emotional health with more funny jokes!

I am

Super Curious. Curiosity is my superpower that fuels my learning. I like exploring the world by reading a lot of books and online materials. From time to time, I raise a lot of questions, and I endeavour to find the answers. Once I have questions to ponder, I draft a plan and find ways to discover new knowledge. Although it takes time or occasionally, I cannot find the answers to my questions; I never give up. Like Thomas Edison once said, "There's a better way to do it—find it." I agree with what he says. I always think of alternative ways to learn the unknown and explore new things. Everyone can learn with a growth mindset and curiosity.

If we serve others, good things will happen to us; Kahili Gibran once said, "You give but little when you give of your possessions. It is when you give of yourself that you truly give." I hope that I can give more to others and be as helpful and kind as I am. Let everyone be kind and generous so that we can make the world a better place.

I am Super Skillful. My talent is designing wonderful apps. This helps me compete against hard-working users and become famous in the future. I think the difficulty is overcome with 99% hard work and 1% genius. Making the right choice leads me to a path without obstacles. As there is a saying of wisdom, "Opportunity only knocks once" I never miss any chances. I have also answered the question that I have been asking myself for a long time. I aspire to become a successful computer designer and have my designs become popular!

I am Super Brave. Protecting my friends to overcome difficulties is my strength. This can also be learnt by others. I believe that even those who are disabled or have sicknesses can also learn to have the power of courage to overcome their difficult time. As a wise man named Nelson Mandela once said, "I learnt that courage was not the absence of fear, but the triumph over it. The brave man is not afraid, but he who conquers that fear." I hope I can help others become brave enough to lead a better life.

I am Super Kindness. I am good at making handicrafts, designing and drawing. Sometimes, I draw pictures for my friends. I always play with my friends. Every Thursday after school, I have lessons with the ice skating teacher at the ice rink. Once in the ice rink, I saw a young girl fall down; I helped her up. I think I am kind to people around me. In school, sometimes I help my friend with homework. This is what I have learned from Albert Einstein: "The ideals which have lighted my way, and time after time have given me new courage to face life cheerfully, have been kindness, beauty, and truth."

I am Super Hardworking. My superpower is extraordinary! With my hard work and determination, I overcome challenges and achieve new heights. I put a lot of effort into my studies. As the great football player Antoine Griezmann once said, "I use my hard work and effort; you can achieve anything." I use my hard work to help others and myself. Being hard-working means giving your best in anything. Together, we can work harder, reach new heights and strive for excellence.

I am Super DIY. I am good at arts such as crafting, making origami and drawing. I always help my friends who are not good at arts. One of my Visual Art teachers told us that when it came to art, stay relaxed, and you would know what to do. So whenever you draw, stay relaxed and have fun! DIY is like creating and building things. I believe that "Every man is the architect of his own fortune."

I am Super Creative. My superpower is creativity. I'm usually quiet, but I can be creative and think a lot. When I entered this school, I found it was amazing and allowed my imagination to flow greatly. I have learned life is a double-edged sword. While, at times, life may be challenging, it can also be joyful. Felix Mendelssohn once said, "The essence of beauty is unity in variety." Make the most of the time you have and make every second count since you won't know when it ends.

I am a Super Mathematician. I can solve Maths problems really quickly. I will keep learning and work faster in solving Maths problems. Thomas Edison once said, "Genius is one per cent inspiration and ninety per cent perspiration." I have to work harder to improve my calculation because it can help with basic things.

Meet Super-Dedication and my power is important in life. If you want to succeed in life, the power of being dedicated and determined with enough motivation can help you to achieve your goals. Every day, I learn new things bit by bit. I slowly build up effort in everything I do to overcome challenges and obstacles on my way to success. As the wise Samuel Johnson said, "Great works are performed by not strength but by perseverance." With the amount of effort put into work, I believe all of our accomplishments will be fulfilled. I am sure we will succeed and enjoy the rest of our life.

I am a Super Magician. I always make and tell jokes to my classmates and family, and they always laugh because of my jokes. I like making others laugh. I also have fun and feel joyful when others laugh. I think making others laugh has become my hobby as people around me always encounter difficulties in their daily lives. I am Super Supportive, and my superpower is to comfort and encourage others. I believe we can reach our goal by intentional action and hard work. I believe everyone is born with a gift, and I'm glad I've got to share mine with my teachers, friends, and family. I aim to demonstrate that we should cherish our gift and support others no matter what. Remember, we should embrace our strength and never let dark moments bring us down. As Sam Levenson said, "We may not always see eye to eye, but we can try to see heart to heart." Therefore, find the strength to empower others.

I am a Super Jokester. I'm called Super Jokester because I can make people laugh a lot even when they are sad. Being funny is good sometimes because people who are sad can laugh at some of your jokes which can make them forget about their problems! My goal is to try and make people who are sad and make them have a big smile on their faces. This is a quote by Elbert Hubbard, "Do not take life too seriously. You will never get out of it alive."

I am Super Understanding, and my superpower is understanding. I help my friends by listening to them and giving advice based on how they feel. If they are feeling sad, I give them advice to cheer them up. We share our feelings, too. As Marie Curie said, "Nothing in life is to be feared. It is only to be understood." I really like the saying; as I know I am the one who can control my life now. I am also proud of myself. I hope that I can give happiness to my family and friends.

I am a Super Shooter. I am good at playing basketball, and my dream is to become an NBA player. I am planning to join the basketball team in my future secondary school. I have done pretty well at learning basketball with my awesome tutor, and I think I learn everything easily. What I want to say to everyone is that don't give up on your dreams. One day, you might achieve your dream. But remember that you don't get it out of nowhere. You must work hard in order to achieve it, like the saying of wisdom, "No pain, no gain."
