Messages from Teachers

Coping with challenges arising from the COVID-19 pandemic has never been easy. During this period, many school activities faced tremendous disruptions. The school has made many adjustments to teaching and learning, with the hope to provide every one of us with the best we can. I am impressed by how we have worked together as one to adapt and embrace changes around us.

The world is evolving at a faster pace than ever before. I encourage you to embrace challenges as you blossom, seize the opportunities to learn and grow with resilience.

I am delighted to celebrate this milestone with you as you graduate and embark on the next phase of your life. May I wish you all the best in your future endeavors!

Ms YU Hing-yin Marie
(Headmistress)

It's glad to see you all get more mature when you are heading to secondary school. Though no one can ever tell one's future, the future is in our hands. With an open-mind and positive ways of thinking, we can plan our days and overcome challenges in front of us. It is our belief that matters. Get to know your strength and also your weaknesses. Show your concern and love to your family, your friends and those you care. Wish you all brighter days ahead!

Ms Fung Wan-shuen
(Deputy Headmistress)

Congratulations graduates! I am so happy to share in the excitement of your graduation day! Congratulations to you that you have passed the first hurdle of your life. You've worked hard to achieve your goals and now you're on your way to seek new prospects, dream new dreams, embark on who you are, embrace life with passion and keep reaching for your star. Remember to "Seize the Day" and all difficulties could be overcome easily. All the best wishes to you as you're all set to enter a new phase of your life.

Mr Chow Tat-keung
(Deputy Headmaster)

It has been six years since I joined this school, which means, I came to this school when you were new students in P.1. Over the past six years, I had a great time learning and growing up together with you all.

Although we did not have much time together in the past two years due to the COVID-19 Pandemics, I still hope that our bonding will last a lifetime. I believe the fond memories of SEKPS will give you the strength to face any challenges, and the love you take with you will give you the courage and positive energy to cope with the difficulties you encounter.

Dear students, be courageous and confident, and do your best!

Ms WONG Wing-sum
(6A Class Teacher)

Congratulations on your graduation!

It is my absolute pleasure to be your teacher and to witness all of you grow, learn, and progress. Memories with you over the past three years have enriched my life, and I am proud and blessed to have students like all of you.

May you follow your heart, go confidently in the direction of your dreams and strive to become a unique and great person! Remember those who don't compromise are always blessed with success in life.

Looking forward to hearing about all the great things you accomplish in your lives in the future.

Ms WONG Yee-man
(6B Class Teacher)

Congratulations on your graduation, my warmest wishes are with you.

This is my first time being the class teacher of a graduation class. I had a very unforgettable time with you all. I will never forget the memories we created and shared.

You're graduating at a tough time, but I believe that better days are coming. May you learn and grow from the experiences you gained so you may live your dreams. May you grow as a person and find out what it takes to better yourself, and create a life that you can be proud of.

Wishing all of you the best in the future.

Ms CHU Mo-kwan
(6C Class Teacher)

Congratulations graduates!

These past years have been very challenging for everyone but you made it through with perseverance and positivity. It has been my greatest pleasure as your teacher to see you learn, make progress and grow with changes.

It is now time to embark on your new adventure. Remember to hold on to what you have learned in SEKPS. Best wishes to you all as you are now all set to enter a new phase of your life.

Ms Chen Chih-lie

Congratulations on your well-deserved success!

An old Chinese saying says, "Life is like a book." You have just finished one of the chapters and about to turn into a new chapter.

May you dream new dreams, embrace life with passion and keep reaching for your stars. Wishing you all the best, my dear students, as you embark on your new exciting adventure.

Ms LAU Pui-fung

"Mistakes are proof that you are trying." I hope you will not give up easily when you encounter difficulties in your future because winners never quit, and quitters never win. Congratulations and good luck to all of you!

Ms TSE Yuk-yee

Congratulations on your graduation! The year has come and gone quickly. I am glad to know all of you and have fun together. Remember to always work hard, stay positive and never give up when you encounter obstacles. Warmest wishes for your next adventure! Come visit us often! We will miss you all.

Ms Lei Wing-kwan

Learning is a process of equipping oneself to face challenges in the future. It is like running a marathon. Someone can start fast but ends the last. Someone may have a fall at the beginning, but catch up to be the champion. I hope that all P.6 pupils will go to secondary schools that are suitable for them.

Boys and girls, your graduation today marks a milestone and gives you a chance to boost up. Never give up and keep running for your better future. I wish you all the best and enjoy a happy secondary school life!

Mr CHAN Wang-fai

Congratulations graduates! In the past six years, I might have taught you English, Visual Arts, or Drama. No matter how I meet you at school, I am always grateful to have known you. With lots of pride as a teacher, I have been blessed to see your remarkable growth. I extend my best wishes for your continued success and the opportunities that lie ahead. Chase your dreams, burst out at the seams! Keep trying and never stop learning. Seize the day and live your life to the fullest!

Ms Mak Yee-kiu

Congratulation to all of you! I am so happy to be your Mathematics teacher (6B) and your Music teacher (6A, 6B, and 6C) for these two years. Although almost half of our time spent together was online, the memories we had is precious and unforgettable! I still remember clearly what we learned together, the funny dialogues, and the jokes we made.

Here comes the time for you to go on a new stage. Secondary school life will be challenging but fun, I am sure you will enjoy it! You may find it not easy to adapt to the new environment. It takes time, but I am sure you can make it! Fly high! P6ers.

Ms WONG Pik-yiu

I wish you continued success and happiness in all you do. I truly appreciate how hard you have worked throughout your time at SEKPS, especially during a worldwide pandemic!

Best wishes for your next adventure and best of luck on your new beginnings!

Ms YU Ching-wai

Congratulations on your graduation!

Time flies! You are graduating from Primary 6!

In these six years, you have grown taller. You have learned a lot and you have made a lot of friends too!

As you are entering a new stage of life, you will be leaving your teachers, your friends, and the familiar school premises. Remember that they will forever be in your heart and in your memories. Fear not when you face change or challenge, the door of SEKPS is always open for you. Best wishes!

Mr WONG Chun-hei

Congratulations on your graduation!

I'm so happy and proud to share the excitement of your graduation. Congratulations on opening up to a new chapter of your life. Remember to aim high, dream big and work hard. May you embrace life with passion, and keep reaching for the stars. Always believe in yourself!

Wish you all the best and good luck!

Ms TONG Tsz-ying

It has been a great pleasure teaching you and sharing lots of joy with you. All of you will always be a part of my memory lane.

Life is a journey full of challenges. Start by doing what is necessary, then do what is possible, and suddenly you may find you are doing the impossible!

Wishing all graduates every success in the future.

Ms TANG Yee-mei

Congratulations on your achievement! You have proved your worth, and we are so proud of you.

Starting a new chapter in your life is always exciting. Wishing you all the best and a bright future ahead.

Mr Tam Kwok Pan

So Long, Farewell, Kadoorians!

As you embark on your new journey, you will meet a lot of wonderful new teachers and classmates. You will face new challenges too!

May you feel joy and have new inspirations as you go to your new schools; and may you have the confidence and courage to overcome obstacles you encounter.

Our dear Kadoorians, you are always supported and loved. Be courageous to start a new chapter of your life!

Ms YEUNG Choi-mei

I would like to share a graduation speech from my favorite movie "The Amazing Spider-Man 2". The main actress, Gwen, gave the following speech at her graduation:

The future is and should be bright, but, like our brief four years in high school (for you is six years of primary school), what makes life valuable is that it doesn't last forever, what makes it precious is that it ends. I know that now more than ever. And I say it today of all days to remind us that time is luck. So don't waste it living someone else's life, make yours count for something. Fight for what matters to you, no matter what. Because even if you fall short, what better way is there to live?

You will all go to different schools after the summer. It is a new and great chapter for all of you. Wishing you a bright future ahead.

Mr Wong Tsz Shing

6A Students

6A Asfia

2,022 likes

6A Asfia I will work hard to improve my grades and do well in secondary school. I will try my best to overcome all the difficulties. I will also prepare myself with a positive attitude for the changes that I might face. I will try my best to get used to challenges and adapt to the new environment.

6A Ricky

2,022 likes

6A Ricky I think I should first get to know myself well so that I know my dream, ability, strength, and weaknesses. I can plan better if I set the target earlier. I can prepare for most of the upcoming challenges by studying more.

6A Cheuk Yau

2,022 likes

6A Cheuk Yau I will learn to forgive myself for my mistakes and keep reminding myself not to do them again. I also vow to learn new knowledge and to use them wisely. I think I will be a better me if I can achieve the above.

6A Jason

2,022 likes

6A Jason I will equip myself with skills in how to prepare and identify changes. I need to keep my skills current and up-to-date so that they are useful to me. I will set clear goals and overcome all the difficulties on the way to success. I hope that I will not just embrace the change, but I could take it as a chance to show my ability.

6A Jaaznia

2,022 likes

6A Jaaznia For myself to embrace changes in the future, I will try my best to see every situation, every person, and every problem as a possibility.

6A Simba

2,022 likes

6A Simba I am quite careless as I would like to finish all the things fast. I think I need to be more careful because a careful person can learn better. I want to be a knowledgeable person so I know how to cope with the changes confidently.

6A Fiza

2,022 likes

6A Fiza I am very grateful to have studied at SEKPS. I will be moving on to a whole other level of life soon. I will try my best to achieve every dream of mine. Sometimes it's hard but we should bravely prepare ourselves for changes in our lives.

6A Kevin

2,022 likes

6A Kevin I will learn new and valuable skills like programming. If anything unexpected happens in the future where these skills are in demand, I will be ready for the changes and maybe even embrace them.

6A Raphael

2,022 likes

6A Raphael I will go with the flow when encountering changes in the future. I will trust God and hope God will bless me for my future. I will become more confident and keep learning so that I will be brave and smart enough to adapt changes and overcome the tough time.

6A Manjot

2,022 likes

6A Manjot I will join more voluntary activities and make more friends as I want to broaden my horizons. I will also study hard to gain sufficient knowledge to make the world a better place.

6A Edén

2,022 likes

6A Edén I shall work harder and be more responsible in the future. To cope with the ever-changing society, I will equip myself with different kinds of skills and knowledge.

6A Tiger

2,022 likes

6A Tiger I will work hard with a positive attitude for whatever comes my way in the future. I will not let anything bring me down. I will try my best to overcome problems.

6A Jasmine Ma

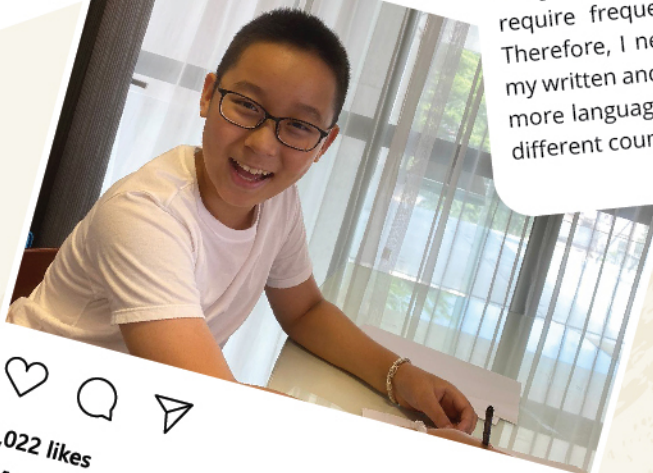

2,022 likes

6A Jasmine Ma I think that my future career may require frequent traveling or work with foreigners. Therefore, I need to read more English books so that my written and oral English can be improved. I will learn more languages too as I want to talk with people from different countries fluently.

6A Tom

2,022 likes

6A Tom I like drawing my comic books and I will persevere with this hobby as a way to express myself. I can foresee that I may need to face many challenges and changes in the future, so I think I will find some more interests or learn some more sports to help myself ease the pressure.

6A Jasmine Molina

2,022 likes

6A Jasmine Molina I would like to be a YouTuber in the future as I think advertisement and information platforms will be in large demand. I want to operate a well-known YouTube channel. I need to equip myself with video-editing skills, recording skills, and presentation skills so as to produce great videos and gain popularity.

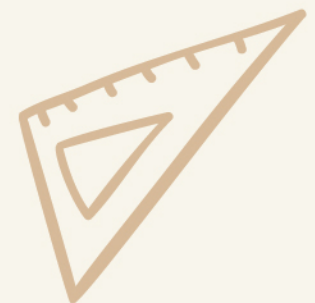

6A Zi Wei

2,022 likes

6A Zi Wei I would like to improve my social skills. I want to make more new friends in secondary school. Besides, good social skills can facilitate effective communication with colleagues in the future. Friends and colleagues will be my partners to overcome changes and difficulties in the future.

6A Zishan

2,022 likes

6A Zishan I will prepare for all the difficulties or problems that come my way in the future. No matter how much the changes affect me, I will just overcome them with effort and positive energy.

6A Christoff

2,022 likes

6A Christoff The present knowledge may become outdated someday. So, I will equip myself with updated knowledge and information that will be useful for me to adapt to whatever changes the future brings.

6A Yoyo

2,022 likes

6A Yoyo I will study even harder to become more confident. Knowledge can make a person become more confident as you know how to deal with difficulties. If you are sure that you can find ways to adapt to changes or overcome challenges, you may embrace the changes bravely.

6A Vineeta

2,022 likes

6A Vineeta To embrace changes in the future, I will become more confident and improve my self-management skills. I want to gain more leadership skills to become more confident. To improve my self-management, I will spend time developing a systematic way to arrange my schedule and manage my own stuff. I hope these things will create a better me to cope with challenges in the future.

6A Sophia

2,022 likes

6A Sophia Unless you were born with a silver spoon in your mouth, I think there is no shortcut to success. Nevertheless, this is not the case for me. I will persevere in whatever endeavor I set my heart into because there is no victory earned without our blood, sweat, and tears.

6A Jasper

2,022 likes

6A Jasper I will study hard for my future in hopes of making this world a better place and helping the ones who are not as lucky as I am. I need to improve my communication skills as I think all career requires interpersonal cooperation.

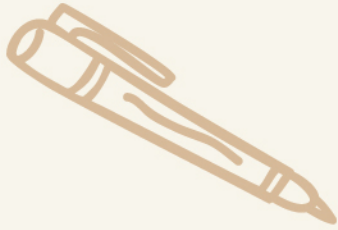

6A Oliver

2,022 likes

6A Oliver I want to be a doctor because I want to help people in need in society. In the future, the world may face tough moments as severe as the COVID-19 pandemic again. I think I need to study harder to make sure that I have sufficient medical knowledge to reach my dream.

6A Angela

2,022 likes

6A Angela I will prepare well for my secondary school life. After graduation from secondary school, I will work very hard to fulfill the requirement of my dream job. I would like to improve my weakest subject, English, by reading more English books. On the other hand, I will carry forward my own advantages and always run towards what I want.

6A King

2,022 likes

6A King I will study harder and become smarter in order to embrace changes in the future. Knowledge and skills can make one be more confident in challenges. I think it is also very important to keep myself in good health condition.

6A Andrew

2,022 likes

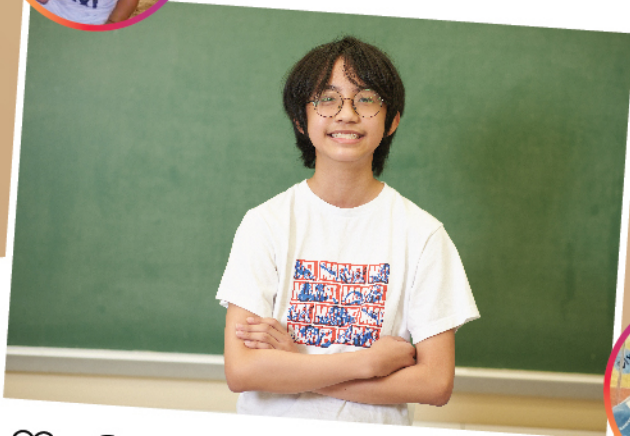

6A Andrew In recent years, education emphasize 'self-access learning'. I think I may need to read more books to know more about the world. Improved reading skills may also enhance my ability to self-learning. Besides, I have to establish a healthier lifestyle with a balanced diet and longer sleeping time.

6B Students

6B Jerome

2,022 likes

6B Jerome Secondary school is one of the toughest places to study in. Some of your friends may lose contact with you. Some people may want me to do some bad things but I won't. I will choose new friends that will help me become a better person. Subjects and homework will be harder than before but I promise I will push myself to study harder and get good results.

6B Rhyannon

2,022 likes

6B Rhyannon I will have a healthier and better lifestyle such as waking up early and eating healthier so I can focus more when I go to secondary school. I would also want to work harder so I won't be behind my classmates. Moreover, I will put great effort into getting a scholarship so that I can go to a good university and won't need to pay for it.

6B Bella

2,022 likes

6B Bella I will join different courses to enrich myself and learn different kinds of skills so that I can cope with the challenges in life. When I go to secondary school, I will put the effort into studying. I hope I can find a job that is suitable for me in the future.

6B Surayya

2,022 likes

6B Surayya To embrace changes for the future is to learn from past mistakes and have an open mind. Learning from mistakes will help us avoid the same problems we came across and an open mind will allow us to be ready for all the hardships and challenges that will come in the future.

6B Peter

2,022 likes

6B Peter I am going to secondary school so I need to prepare and get ready for every challenge that I'm going to face. I'll read all my secondary school books. I'll also join every outdoor activity with my friends. Moreover, I'll study hard to get a job in the future.

6B Rianne

2,022 likes

6B Rianne Graduation is near, and soon we will be going into different secondary schools and probably won't see each other often anymore. We really can't predict what will happen in the future so all we can do is hope for the best in the future. A lot of changes will be made, such as environment, teachers, classmates, and school location. It will take time to adjust and get used to a new environment. I will work hard to achieve my goals and hope for the best.

6B Caitlyn

2,022 likes

6B Caitlyn We can neither predict what will happen nor control the future. We are not sure whether the jobs we want will be available as the jobs will be replaced by AI and robots. To embrace this change, we must learn new skills to cope with the challenges.

6B Zikra

2,022 likes

6B Zikra In a few months, we will go to a new school with different people and teachers. We will have to meet new people and learn to adapt to a new learning environment. We can prepare by joining more new activities, waking up earlier than usual, and doing more studies.

6B Arielle

2,022 likes

6B Arielle Graduation is soon and it means a new chapter in our lives. We will all go to a new school, have new friends and a lot more. The secondary school will have a lot of changes such as more difficult subjects like biology, science, and history. Changes in the future can be difficult but we must prepare ourselves to face new challenges. We should embrace the great future ahead with all optimism.

6B Manaahil

2,022 likes

6B Manaahil When I go to secondary school, I won't have my besties right there to help me. We will stay in touch but I need to be independent. I also need to learn some communication skills so that I can make more new friends. I will work hard in my studies to prepare for the future.

6B Arham

2,022 likes

6B Arham To embrace changes for the future, I will work harder than ever and be more active so I can pass all subjects and graduate from secondary school, or even work for a high pay job. I need to get up early from now on and finish my homework every day. I will break my goal into small steps. I will do it consistently and master self-discipline in mind. I hope my dream will come true one day.

6B Athul

2,022 likes

6B Athul I hope I can have good friends, wonderful jobs, and enough money for a living. Every day, I need to stay focused, optimistic and confident so that my dreams will come true.

6B Subhan

2,022 likes

6B Subhan If people do not embrace changes, they become stagnant and do not grow in their lives. Accepting our own flaws is probably the most difficult part, but it is beneficial to our future. It is easier for us to reinvent ourselves. Some people prefer stability in their lives, while others prefer to change. I prefer to accept changes. How about you?

6B Noah

2,022 likes

6B Noah "You fail not because you're not good enough, but because you haven't tried enough." There will be a lot of changes in the future. Nobody can predict the future, I will try my best to communicate with my family, my teachers, and my friends. I will continue to work hard, I hope I will be successful one day.

6B Minh

2,022 likes

6B Minh "A dream does not become reality through magic; it takes sweat, determination, and hard work." Doing the best at this moment puts you in the best place for the next moment. Therefore, I will work hard to embrace the changes in the future. I hope my mom will be proud of me.

6B Kavinayaa

2,022 likes

6B Kavinayaa I can join some STEAM classes to enrich my knowledge of new subjects that I will encounter in secondary school. I can also join some after-school activities like a basketball course to help myself to spend my leisure time wisely. By doing so, I can develop strong skills in science, technology, engineering, and sports.

6B Selena

2,022 likes

6B Selena I will learn different skills so that I am prepared to face changes in the future. I want to learn Dutch and try to start a business by helping mommy to set up the App for the restaurant. I may also learn more about baking such as how to make egg tarts.
I will learn biking and gardening. I will make new friends.

6B Ray

2,022 likes

6B Ray I am excited about my new life in secondary school. I'll meet many new classmates and teachers. This will be very interesting and challenging. Also, I'll miss my primary school. I'll study hard and be polite and friendly to others. Wish us all will get better achievements in the years to come.

6B Daniel

2,022 likes

6B Daniel To embrace changes for the future, I need to study harder because the learning tasks in secondary school are going to be harder. I will be more outgoing and brave because I will not know anybody except my brothers. I am going to join different activities in my new school so that I can meet more friends.

6B Sherleen

2,022 likes

6B Sherleen I think I will be an actress when I grow up because I have been joining the drama course for 7 years. I will continue to join an acting group in secondary school. I will meet new friends and new teachers. I have to face new changes but it is good that I have my siblings studying in the same school. They will help me to be open to different people.

6B Michael

2,022 likes

6B Michael I am looking forward to meeting new friends, new teachers and learning new subjects. I am getting ready to wake up earlier, travel longer, do more homework and learn different subjects. I am now working hard at football training so that I can play in a good team outside the school and represent my secondary school to win matches.

6B Samuel

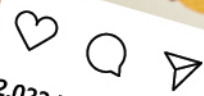

2,022 likes

6B Samuel I will try to make new friends so that we can help each other. There will be new subjects that will be very hard so I have to pay attention in class and study hard. Subjects like history, science, and chemistry are new to me. I will also seek help from others when I need to. I hope I can achieve my goals in the future.

6B Kaitlyn

2,022 likes

6B Kaitlyn I think to embrace changes for the future is to never lose ourselves in the process. I'm graduating this year, and now I'm going to secondary school. I will have a new life. It's a really big change but I know I'll be alright because I am learning different skills such as communication skills and problem-solving skills. I need to practice more in my secondary school. I'll remember what I learn in primary school when I encounter difficulties in the future. SEKPS is my home and I'll love this school forever.

6B Nicholas

2,022 likes

6B Nicholas I will meet new classmates and teachers in my secondary school. So I need to improve my communication skills in order to make more friends. I also need to enhance my thinking skills and creativity so that I will not be replaced by AI. I will be able to embrace changes in the future without fear.

6C Students

6C Aisha

2,022 likes

6C Aisha In my new stage of life, my target is to be a hard-working student. When I go to secondary school, I will put more effort into my studies. I will be a smart student and achieve good marks in my studies. I will show my true side, too.

6C Chynna

2,022 likes

6C Chynna To embrace changes in the future, I will prepare myself to be more mature and hardworking. Then I can have more time to experience, get used to the new environment, and meet new people. I'm planning on using apps to help me manage my time more efficiently. I will start building small habits so that I can get used to the changes faster.

6C Khizar

2,022 likes

6C Khizar I want to achieve my goal when I go to secondary school. I need to focus on my study to graduate my secondary school. After university, I want to be a cricketer so I need to study hard and do training every day. One day I will play for my country to make our team win and our country's name famous.

6C Farhan

2,022 likes

6C Farhan Secondary school is coming soon. I need to study hard for exams and hand in homework on time. After secondary school, I want to be a footballer. Therefore, I need to join football training, join an academy, and practice football every day. Then I can be better and more competent at playing football.

6C Grisma

2,022 likes

6C Grisma Even though everything will become more difficult in secondary school, I will try to get good grades and be better than I was in primary school. I will try to ask help from teachers whenever I need to. I will try to be confident and more proud of myself, and become a better person.

6C Eden

2,022 likes

6C Eden Changes from primary school to secondary school are big. I will meet a lot of new faces. There will be a lot more subjects to learn and I may have less free time. Therefore, I will work a lot harder and spend my time wiser. I will be more confident and believe in myself even more.

6C Jan Jan

2,022 likes

6C Jan Jan To embrace changes for the future, I want to study harder in secondary school and be more confident and hard-working. In the future, I want to be a basketball player. To be a good basketball player, I need to practise every day, go for a run to get fit, and watch basketball videos to watch and learn from them.

6C Justin

2,022 likes

6C Justin I will work hard to achieve a good life in secondary school. I will learn new subjects and meet new people. I will use the knowledge I have acquired to embrace my future. I will also manage my time and become a better person. I will exercise because I feel like I can get anywhere easily with a fit body!

6C Thomas

2,022 likes

6C Thomas I will travel over the world to learn different new things, to enjoy my life to find what I want and need. Before that, I will face many new subjects in secondary school so I need to study hard. I will prepare myself to be confident and responsible.

6C Anh

2,022 likes

6C Anh I will try my best to prepare for examinations. After graduation from primary school and then secondary school, I will get into a good university and get a degree in engineering and become an engineer. I will also invest my money in some cryptocurrencies or companies.

6C Sahil

2,022 likes

6C Sahil I will welcome the new stage of life by studying hard and keeping going. I will work hard and become more confident and try my best. I will try to get a master's degree in teaching and coding. I also want to travel around the world to learn about other countries.

6C Khang

2,022 likes

6C Khang There will be more subjects in secondary school, I will create a timetable for time management. I should be more outgoing in meeting new friends, although I have tried it many times. I will become more hardworking and responsible so that I can cope with the challenges. Every little bit helps. One small change in the past can lead to a big change in the future.

6C Rabiya

2,022 likes

6C Rabiya Secondary school life will admittedly be quite different from now but I will try to stay organized and productive! There will be a new environment, new people and more subjects. I will join more activities to increase my confidence and find friends who have common interests. As for my study, I will prepare for the lessons well. I am pretty sure that these can help me embrace my future life.

6C Rubino

2,022 likes

6C Rubino I hope I can get to a good secondary school. I will manage my time to study hard for the future so that I will learn a lot of new things. I will prepare for my future and work hard for my goal. Being a pilot is difficult. To achieve my dream, I will study hard to get a pilot license!

6C Richiek

2,022 likes

6C Richiek The future will be one of the best things in everyone's life. Here's what I want to see about the future. Firstly, COVID-19 will disappear and everything will return to normal. Secondly, I want to grow up and make new friends. That will be so cool. Thirdly, I want to go to a good school and start a new life there.

6C Sauda

2,022 likes

6C Sauda To prepare me to embrace the future, I will study hard and not give up when I face any difficulties. I want to earn trophies, and scholarships and make well achievements. I'll try my best to not let my family get disappointed. I will keep my head up during dark times, and become a better person each day.

6C Selby

2,022 likes

6C Selby I will prepare myself for the future. I will become more hard-working and study hard for my secondary school. I will be nice to everyone and make new friends. I will also manage my time properly and learn new things and subjects. My dream is to go to the best university. Therefore, I need to study hard from now on.

6C Ivy

2,022 likes

6C Ivy I know everything at secondary school is going to be different. There will be more subjects in secondary school and I have to get used to the new learning environment. I will try hard to improve my learning skills. I will try my best in studying to get good grades.

6C Bruce

2,022 likes

6C Bruce I will become an S1 student soon, I feel sad but happy. I will study harder because S1 life is not easy! I want to become a police officer when I grow up. To achieve my goal, I should be strong and study harder! Lastly, I will tell myself, "Study hard and read Chinese and English books. Do more exercises too!"

6C Iris

6C Iris Secondary school life is coming. Everything is going to change and things may get harder. Therefore, we need to learn more so we can know what's happening around us. I want to be more confident and brave enough to meet more people. Secondary school life is welcoming to all of us!

6C Joseph I will study hard to be ready for the new stage of my life. I will work hard as much as I can. Being a chef is what I want to do in the future. I will learn more ways to cook on the internet. Hopefully, I won't fail in having my dreams come true!

6C Ronak I am working very hard for my future. I will study hard and become a good doctor when I grow up. I have a dream. I wish that no one ever dies of disease in the future. That's why I want to be a good doctor.
