The Monster Prince

Once upon a time, there was a prince. His name was Prince Henry. He was tall and handsome. One day he went to a forest. He saw an apple on the ground. He was hungry so he ate it. Suddenly he became a monster!

Henry ran to a village. The people ran away because they didn't like the ugly monster and they were scared. "Look, it's a scary monster!" the boy screamed. Henry felt unhappy when the boy screamed at him.

One day a dragon came to the village. The dragon wanted to catch the leader's daughter. The village leader screamed "Help! Save my daughter!" The leader ran to Henry.

Henry saw the situation so he fought with the dragon and saved the village leader's daughter. The leader said, "Thank you for saving my daughter!"

Finally, the village leader gave Henry a magic apple. The villagers said thank you to Henry. Henry ate the magic apple and became the handsome prince again. He felt very happy!
