

Information Technology

✧ Introduction

The objectives of Information Technology for our school:

1. To equip students' e-learning skills and enhance their learning effectiveness.
2. To train students to make good use of the e-learning platform for self-learning.

Textbooks and Workbooks

- P.1 to P.2: No I.T. textbook required
- P.3 to P.6 : I.T. e-book - Publisher: Anieducation
(The e-book is an online textbook, no hardcopies are available)

✧ Information Technology Activities

<u>Online Office 365 Account for each student</u>	
Objective	To promote e-learning activities for teachers and students
Form	Students can login to Office 365 account to get class information and communicate with their classmates and teachers
Photos	

E-card Design Competition	
Objective	Let students try out the I.T. skills they have learnt to express their creative ideas through designing the e-card
Form	Students design the e-card and submit the card to the organization for competition
